

Certificate of Data Destruction

Serialized attestation of media sanitization & physical destruction

Certificate No.: COD-SAMPLE-000000 **Date Issued:** 2026-01-15

This certificate attests that the data-bearing media listed below was sanitized and/or destroyed by Circuitry Solutions in compliance with NIST 800-88 Rev. 2 and IEEE 2883-2022. Method selection follows media type; magnetic media is degaussed using NSA/CSS EPL-listed equipment and then shredded.

ENGAGEMENT DETAILS

CLIENT

[Client name withheld on sample]

PICKUP / PROJECT ID

PRJ-SAMPLE-0000

DESTRUCTION FACILITY

Seabrook, NH

DESTRUCTION METHOD

Shred + degauss / cryptographic erase

WITNESSED

On-site witness available on request

STANDARDS APPLIED

NIST 800-88 R2 · IEEE 2883-2022

DESTROYED MEDIA SUMMARY

Asset Serial	Media Type	Method	Result
SN-SAMPLE-AA01	NVMe SSD (1 TB)	Cryptographic erase + verify	Sanitized
SN-SAMPLE-AA02	SATA HDD (4 TB)	Degauss + shred	Destroyed
SN-SAMPLE-AA03	SAS HDD (2 TB)	Degauss + shred	Destroyed
SN-SAMPLE-AA04	M.2 SSD (512 GB)	Cryptographic erase + verify	Sanitized
SN-SAMPLE-AA05	LTO Tape	Degauss + shred	Destroyed

ATTESTATION

Circuitry Solutions certifies that the media identified above was processed to the standards stated and rendered permanently unrecoverable. A full serialized line-item report is retained and available to the client on request. Circuitry Solutions holds R2v3 (SERI), ISO 14001, and NAID AAA (i-SIGMA) certifications.
